Taking Medical Imaging to the Next Level
Beginning February 23, 2019, Wake Radiology and UNC REX Healthcare will officially launch a partnership for outpatient medical imaging. This innovative collaboration, originally announced in early 2017, will enhance the ability of both organizations to provide value-based, subspecialty medical imaging throughout the greater Triangle.

Key Benefits from This Partnership
Your patients will gain greater access to cost effective imaging procedures in a convenient outpatient setting. Patients with more complex needs will experience quicker access to imaging services at UNC REX Hospital.

• 14 outpatient imaging locations across the greater Triangle
• 3D mammography offered at all locations
• Interpretations provided by 50+ subspecialty trained radiologists

Patient reports / images will be available in UNC CareLink.

How to Order Imaging at Wake Radiology UNC REX Healthcare

• Infina Connect
  – We encourage providers to select either Wake Radiology or UNC REX Healthcare Centralized Scheduling when using this tool.

• UNC CareLink
  – Providers using this platform may continue to do so. Radiology orders will be electronically submitted to Wake Radiology via the UNC REX EPIC workflow in CareLink.
  – Patient reports / images will be available in UNC CareLink.

• Referral Order Pads / Fax
  – For same day and stat orders, please call Wake Radiology UNC REX Centralized scheduling at 919-232-4700. Wake Radiology schedulers will accommodate your patient at the most appropriate facility.
  – Please fax order forms for routine exams to 919-235-3940. Wake Radiology will contact your patient and schedule them at the most convenient of our 14 outpatient locations.
