## MRI—CPT Quick Reference

STUDY	CPT DESCRIPTION	CPT CODE	INDICATIONS FOR EXAM OR STUDY	CONTRAST REQUIRED?	SPECIALTY
<b>MRI CHEST</b> Mediastinum	MRI Chest/Mediastinum with and without contrast	71552	Tumor/Mass/Cancer/Mets	Yes	<b>Body</b>
<b>MRA CHEST</b> Thoracic aorta	MRA Chest with and without contrast	71555	Long-term surveillance of type B dissection	Yes	<b>Body</b>
<b>MRA ABDOMEN</b> Aorta	MRA Abdomen with and without contrast	74185	Chronic known abdominal aneurysm	Yes	<b>Body</b>
<b>MRA ABDOMEN</b> Renal artery Mesenteric arteries	MRA Abdomen with and without contrast	74185	Uncontrollable hypertension Renal artery stenosis Mesenteric arterial stenosis	Yes	<b>Body</b>
<b>MRA ABDOMEN</b> Aorta with peripheral runoff	MRA Abdomen with and without contrast MRA Lower extremity with or without contrast	74185 73725	Peripheral vascular disease Claudication Abdominal aortic stenosis Abdominal aortic aneurysm Abdominal aortic surveillance	Yes	<b>Body</b>
<b>MRI ABDOMEN**</b>	MRI Abdomen with or without contrast	74183	Tumor/Mass/Cancer/Mets Abdominal pain	Yes	<b>Body</b>
<b>MRI ABDOMEN</b> Liver - routine	MRI Abdomen with or without contrast	74183	Hepatitis Hemangioma Abnormal liver function test Characterization of any liver lesion seen on other imaging	Yes	<b>Body</b>
<b>MRI ABDOMEN</b> Liver - Eovist	MRI Abdomen with or without contrast	74183	Cirrhosis Hepatoma surveillance Embolization planning and post therapy surveillance	Yes	<b>Body</b>
<b>MRI ABDOMEN</b> Kidneys	MRI Abdomen with or without contrast	74183	Hematuria (blood in urine) Transitional cell carcinoma of kidney Abnormal findings on other imaging studies Renal mass (cyst or solid)	Yes	<b>Body</b>
<b>MRI ABDOMEN</b> Adrenal	MRI Abdomen with and without contrast	74183	Adrenal mass or lesion Pheochromocytoma Hypertension	Determined by radiologist	<b>Body</b>
<b>MRI ABDOMEN</b> MRCP - Biliary	MRI Abdomen with and without contrast	74183	Abdominal pain Biliary obstruction Ductal stones Jaundice Abnormal enzymes	Yes	<b>Body</b>
<b>MRI ABDOMEN</b> MRCP - Pancreas	MRI Abdomen with and without contrast	74183	Pancreatitis Pancreas mass Cholangiocarcinoma Primary sclerosing cholangitis (PSC) Increased pancreatic function test Painless jaundice Ampulla evaluation	Yes	<b>Body</b>
<b>MRA PELVIS</b> Iliac vessels	MRA Pelvis with and without contrast	72198	Pelvic venous thrombosis	Yes	<b>Body</b>
<b>MRI PELVIS</b> Soft tissue	MRI Pelvis with and without contrast	72197	Fibroid Adenomyosis Infertility Pre/Post-Uterine Fibroid Embolization (UFE) Endometrioma Ovarian mass	Yes	<b>Body</b>
<b>MR ENTEROGRAPHY</b>	Dual Study: MRI Abdomen with and without contrast MRI Pelvis with and without contrast	74183 72197	Crohn's disease Celiac disease (Sprue) Crohn's fistulous disease Small bowel tumor	Yes Glucagon	<b>Body</b>
<b>MRA UPPER EXTREMITY</b>	MRA Upper extremity with and without contrast	73225	Subclavian Redness or swelling Tenderness	Yes	<b>Body</b> <b>Orthopedic</b>
<b>MRA LOWER EXTREMITY</b>	MRA Lower extremity with and without contrast	73725	Peripheral vascular disease	Yes	<b>Body</b> <b>Orthopedic</b>

\* Exams of the chest, abdomen and pelvis are tailored to the clinical indication and needs of the patient. Images are reviewed by a radiologist before the patient leaves the office.

\*\* When scheduling, organ must be specified.

**Body MRI Physician Hotline:** 919-788-7978 (Monday-Friday)

**Main Scheduling:** 919-232-4700 (choose option 1) **Main Fax:** 919-235-3940 **Chapel Hill Scheduling:** 919-942-3196 **Chapel Hill Fax:** 919-933-9925
